

Wellwasser HOME Edition V10

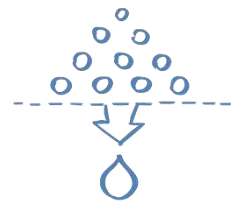

for the production of wellwasser® when using a fixed connected dispenser.

The HOME Edition is a three-stage water treatment system designed for use in offices or demanding households. The system is fitted directly in front of a carbonator in the cold water pipe.

- 👍 Highest drinking pleasure
- 👍 No more carrying bottles
- 👍 Natural minerals are preserved

ZERO TRANSPORTS

CRYSTAL CLEAR FILTERED

wellwasser® is the alternative to bottled mineral water.

Our joint contribution to environmental protection

Technical Details

Activated carbon combi filter with 0.2µm bacteria protection

with silver ions against bacterial growth on the filter surface; Removes unpleasant odors, discoloration, tastes such as chlorine or other unwanted water ingredients. Dirt and particles larger than 0.2µm (0.0002mm) are retained on the membrane surface. Organic pollutants such as pesticides or hormones are bound to the activated carbon.

Natural and valuable minerals remain in the water.

Bacteria reduction 99.999% (>LOG 5)

Life span: 10,000 liters or max. 1 year

Wellwasser Activator

Selected crystals stabilize and vitalize the water. The result is incomparable neutral tasting wellwasser®.

Housing: stainless steel 1.4404

Installation site

Even in a small sink base unit with an undersink water heater there is enough space for the Wellwasser filter system.

Sparkling water makers and dispensers are available in a wide variety of models. We will gladly answer your questions and advise you.
